

Easy Saver, step in and get going!

Easy Saver
Just step in and move around,
hygienically and clean.

The [EASY Saver](http://www.easy-saver.de) is a safe, easy-to-use dispenser system that helps you maintain hygienic cleanliness in all types of areas. It is used in clean rooms, hospitals, retirement homes, laboratories, wellness areas, museums, places of worship and means of transport including buses, trains and aeroplanes. The shoe cover dispenser system is user-friendly and does not require batteries or any other power source. The user simply steps into the dispenser and the shoe cover is placed over the user's shoes. The [EASY Saver](http://www.easy-saver.de) stops dirt and bacteria from being spread throughout buildings. The dispenser system is CE certified.
